

When today's economic environment is full of risks...

Take one less risk with our experienced economics team

Ever-changing regulatory requirements. Persistent market uncertainty. Plus, the looming impact of climate change... today's economic climate can be a minefield for businesses to navigate. But it doesn't have to be.

What 4most offers

- **An experienced economics team with decades of insight.**
- **A collaborative approach that makes sense of the macroeconomic environment.**
- **Bespoke modelling and consultancy catered to your exact needs.**

Our economics offering was designed to give you reassurance and peace of mind. We do the hard yards, looking further and deeper to understand emerging risks, so that you can make the right choices for your business.

See the other side of this page for more details...

Leading economics services, tailored to you

Take a deep dive into your key economic drivers and discover the true power of accurate, timely and tailored information.

Understand risk and plan for the future with our stress testing, forecasting, economic modelling, and advisory services — all carefully tailored to your business needs. Identify risks quicker, interpret them better, and respond to them more effectively.

We act as your very own in-house economics team, providing support as and when you need it:

- A flexible subscription service providing monthly economic outlook packs, early warning indicators and focusing on the economic insights that are bespoke to your business.
- Economic scenarios delivered every quarter for use in IFRS 9 and stress testing - tailored to your specific vulnerabilities.
- Economic model builds, reviews and validations.
- Presentations to senior management by our Chief Economist.
- A governance-friendly approach, with dedicated support for auditor questions.
